Scenario:

You are quarantined and are coughing all night and cannot go to sleep. You find yourself hungry from staying up all night, and you need food to stay healthy. Unfortunately, you are vegetarian and do not have many options to begin with anyway. You would like to get some food, so you can feel better at night.

Task 1: Order a vegetarian dinner option that can be delivered as soon as possible.

Task 2: Browse through the vegan breakfast options and order food for a time scheduled the next morning.

Task 3: Order all of your meals for the day and schedule the times and place you want each one delivered.

Notes

Changes:
- Make options to save favorite items
- Make options to have a list of recent orders
- Have ability to get necessary medicine and other necessities

To Keep Same:
- Delivery Times
- Dietary Options
- Meal Options
